Continue Beyond an Hour of Code

GRADES: 3-8

CS Connections

This curriculum makes the connections between learning computer science and traditional subjects like math, language arts, science, and social studies. Through CS Connections, any classroom can explore its usual subjects in exciting new ways!

Explore CS Connections (http://code.org/csc)

GRADES: K-5

CS Fundamentals

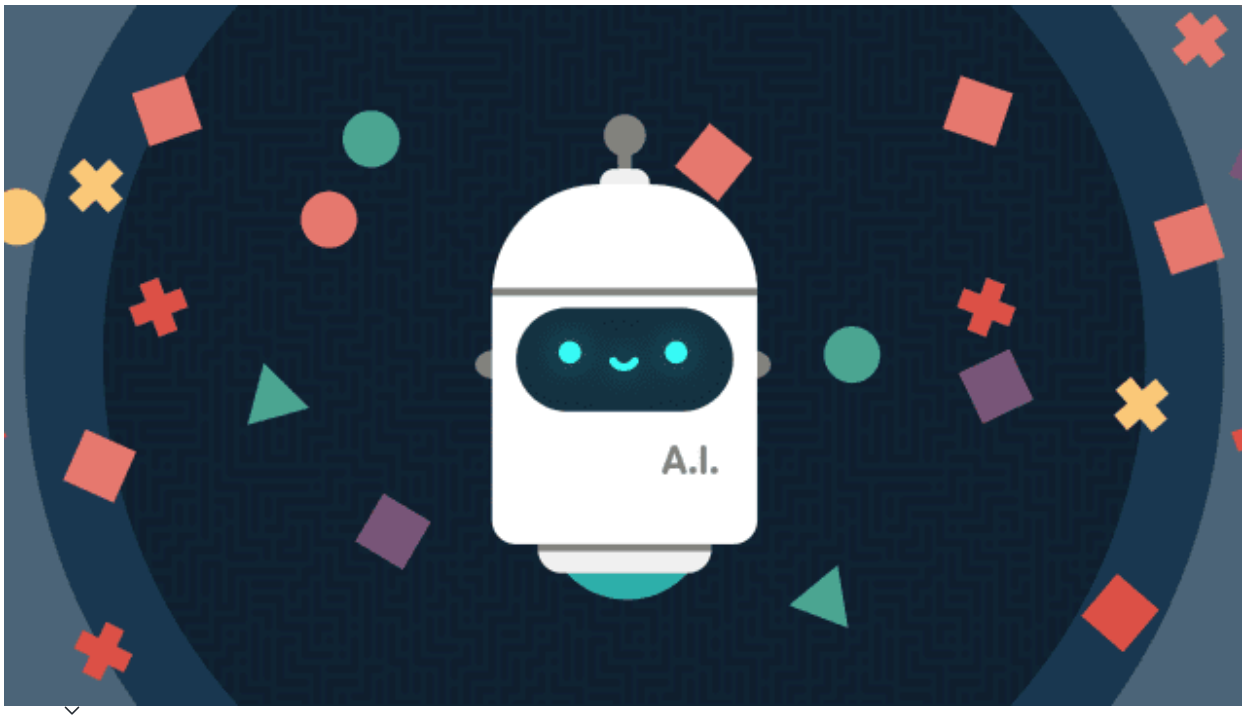

Free set of elementary curricula that introduces students to the foundational concepts of computer science and challenges them to explore how computing and technology can impact the world.

Explore CS Fundamentals (http://code.org/csf)

GRADES: 6-12

How AI Works

These lessons supplement the video series. Each lesson is paired with a single video from the series, diving-deeper into the concepts introduced in the videos.
